

PaymentsGateway to Offer Free E-Commerce Services

November 17, 2008

(AllPayNews.com) - PaymentsGateway (www.paymentsgateway.net), a PCI Certified payment processing platform for merchants in North America, announced today that it will be offering its payment gateway services free of charge to all new resellers from now until April 2009. Making the offer even more attractive, the fee to become a reseller will also be waived for those who sign up before January of 2009.

The enterprise-class PaymentsGateway platform uses the latest technologies to process and manage credit card, debit card and e-check payments for all sales channels under a single seamless interface. PaymentsGateway features the industry's premier Virtual Terminal solution which utilizes the latest in Web 2.0 technologies to maximize ease of use and customization options. PaymentsGateway also features instant online merchant enrollment, private labeling, works with most major credit card processors and is also compatible with most major e-store/cart software.

In addition to the standard product and service offerings, PaymentsGateway also has a diverse third-party developer base which has created numerous specialized solutions for mobile commerce, online commerce, point of sale, payroll and recurring payment processing.

Some of the specifics on the free special service offering include:

- Free Virtual Terminal
- Free Recurring Transaction Manager
- Free Secure Web Pay Checkout
- No Reseller Sign Up Fee
- No Merchant Setup Fee
- No Monthly Fees
- No Per Item Fees

To make it simple, absolutely No Cost whatsoever until April 2009 – resellers will keep 100% of what they charge their merchants for all services. After the introductory period, resellers may continue to utilize the PaymentsGateway offerings for their merchants at the reseller rate schedule, which is one of the most aggressive gateway services rate available.

Parties interested in becoming a PaymentsGateway reseller can email partners@paymentsgateway.com or call 800.337.3060 option #4 to find out more details and to see a demonstration of PaymentsGateway's capabilities.
