

Seac Banche Names Tom Danna Solutions Sales Manager

Appointment of Personnel

Nov. 14, 2008 - Seac Banche USA, Inc. a leading provider of check image capture and check processing solutions announced that Tom Danna was selected as our new solutions sales manager. As solutions sales manager Tom will work with our customers developing custom tailored solutions using our best-of-breed technology.

Tom comes to Seac with over 14 year's experience developing strong partnerships with Financial Institutions throughout the US. He has been successful both as a sales person and Vice President of Sales working with all size banks and credit unions during his career.

As Solutions Sales Manager Tom will be interfacing directly with end-user customers to promote Seac's check scanning and payment processing solutions. This direct interface will allow customers to be better informed about the distinct advantages that the Seac products offer their organizations.

Prior to joining Seac Banche Tom held positions as Account Executive (De La Rue, Inc./United Kingdom), Mid-Atlantic Regional Manager (Glory USA/Japan), National Account Manager (Tellermate USA/United Kingdom), and Vice President of Bank Sales (PBiz, Inc./United States), all within the Financial Industry.

In these various positions, Tom worked with customers including banks; credit unions; hospitals; casinos; and major retailers with an emphasis on enhancing productivity and return on investment for his clients. Tom has a reputation for delivering solid; credible solutions that show a genuine concern for doing what is best for his customer.

"I joined Seac because they share the same commitment that I have maintained of delivering top quality, best-of-breed solutions to customers along with the service and support necessary to maintain those solutions." Stated Tom.

About Seac Banche

Seac Banche offers the most comprehensive line of check scanners in the market. With scanners that service teller window, branch back office, centralized and self service operations a bank or credit union can standardize on a single

manufacturer that has product lines to meet all of their needs. Each Seac Banche product is engineered and manufactured to demanding standards. Every Seac scanner is designed to have low maintenance requirements and easy serviceability.

Seac Banche has over 500,000 units installed worldwide in banks, post offices, financial institutions and corporate offices. A world leader in design Seac remains the natural choice for data and image capture solutions when performance, reliability, flexibility and cost efficiency are concerned.

Seac's Solutions Group provides complete end to end check image capture and check processing solutions using best-of-breed technology. Seac Solutions Group and their partners bring the best technology together to create a customized solution for our customers.
